+52 (985) 109 0354

Country:
Mexico

Work format:
Remote or office

Knowledge

Main:

- Python

- HTML

- CSS

- Django

Complementary:

- JavaScript – Flask – Tkinter

- MySQL – PosgreSQL

- Git – GitHub – Linux

- GIMP – DaVinci Resolve

Skills

- Communication

- Organization

- Teamwork

- Problem solving

- Constantly updating and improving knowledge

CERTIFICATES *see on Google Drive*

Google IT Automation with Python, Google-Coursera, 2022

Immersion in Python, *course by Moscow Institute of Physics and Technology and the group @mail.ru, 2021*

Master in Python: Learn Python 3, Django, Flask y Tkinter, *Udemy 2020.*

Technical Support Fundamentals, Google-Coursera, 2019

JavaScript / JQuery, FructCode, 2019

HTML / CSS, FructCode, 2018

LANGUAGES

- Spanish - Native
- English - Pre-Intermediate (reading and understanding manuals, documentation, guides, etc.)
- Russian – Upper Intermediate (speaking and writing fluently)

ABOUT ME

I have a master's degree in music. I graduated from the Saint Petersburg Conservatory, Russia. However, I am currently 100 % focused on programming with Python. I have knowledge in front-end development with HTML, CSS and Javascript. I work as a freelancer, and in my free time I play the piano, I watch documentaries on various topics. I also like to walk, read the news and sometimes do some auto mechanic work. I am really passionate about self-learning, so I continue taking courses on Python programming and web development.
